

Gentlemen, I seldom become involved with either political party. However, the Sinclair Broadcasting Company's flagrant disregard of the expected bipartisan use of American airwaves is very discouraging. As I understand the issue, the FCC in 2000 allowed the "equal time in the air for both sides of issues/political parties" to cease. If the Sinclair Broadcaster's planned use of the airwaves is any indicator, WE NEED MORE REGULATION, NOT LESS As an American citizen/taxpayer I want to feel that if I listen to "news" it is not "opinion" of the station owner. The American Airwaves should be used in a bipartisan manner since they belong to all of us. I would appreciate a reply from you. jrstock35@cs.com
